

# User guide

## PROPER USE OF THE COVERALLS

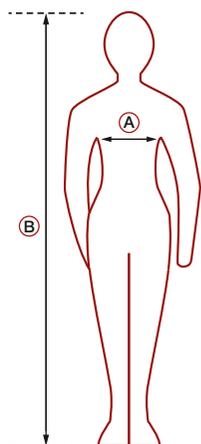

1. Check the coveralls for damage, ensure that the fittings are correct.
2. Take a sitting position. Put on one leg of your coveralls. Then put on the rubber boot for that leg. Repeat the same for the other leg.
3. Throw the coveralls over your shoulders and alternately extend your hands into the sleeves of the coveralls.
4. Fix the sleeves with the help of finger clips if necessary.
5. Wear ear protection (ear plugs), eye protection (safety glasses) and respiratory protection (respirator, half mask or full face mask) if necessary.
6. Throw the hood over your head. The rubber contour of the hood should cover the entire hair.
7. Fasten the zipper up to the chin.
8. For proofing of the zipper remove the protective paper layer of adhesive tape on the protective strap and glue it tightly.
9. Put on the rubber gloves. They should be under the cuffs of the coveralls.
10. Sit down and pull your arms to the sides to make sure that the suit is not pulling and sits comfortably on the body.

## REMOVING THE COVERALLS

1. Unfasten the zipper to the end.
2. Remove the coveralls hood. Do not touch the face and head with gloves.
3. Stuck your arms around your lower back and pull on one sleeve. Release one hand, then repeat the same steps with the second sleeve. Gloves should be removed with the sleeves.
4. Take a sitting position and alternately remove the legs touching the coveralls only from the inside.
5. Remove the rest parts of personal protective equipment.
6. Utilize the coveralls according to the disposal regulations adopted by your organization.
